15. STANDARDS FOR BOARD DECISIONS AND APPEALS. The Board and any body hearing an appeal from the Board's decision shall be guided by the following principles:

a. Control of architectural appearance and use of materials shall not be so exercised that individual initiative is stifled in creating the appearance of external features of any particular structure, building, fence, wall or roof, except to the extent necessary to establish contemporary accepted standards of harmony and compatibility acceptable to the Board or the body hearing an appeal in order to avoid that which is excessive, garish, and substantially unrelated to the neighborhood. (Pertains to Conditions Nos. 5 & 6 of Section 3 of this Resolution - Exterior Building Materials & Exterior Building Appearance).

b. Good architectural character is based upon the principles of harmony and proportion in the elements of the structure as well as the relationship of such principles

to adjacent structures and other structures in the neighborhood. (Pertains to Conditions Nos. 5 & 6 of Section 3 of this Resolution - Exterior Building Materials & Exterior Building Appearance).

c. A poorly designed external appearance of a structure, wall, fence, or roof, can be detrimental to the use and enjoyment and value of adjacent property and neighborhood. (Pertains to Conditions Nos. 5 & 6 of Section 3 of this Resolution - Exterior Building Materials & Exterior Building Appearance).

d. A good relationship between adjacent front yards increases the value of properties and makes the use of both properties more enjoyable. (Pertains to Condition No. 2 of Section 3 of this Resolution - Front yards).

SECTION 4. The City Council finds and determines that the public health, safety and general welfare of the community require the adoption of this Resolution. It is determined that the various land use controls, and property regulations as set forth herein are substantially related to maintenance of Arcadia's environment, for the purpose of assuring that the appearance of structures will be compatible and harmonious with the use and enjoyment of surrounding properties. Design controls and aesthetic considerations will help maintain the beauty of the community, protect property values, and help assure protection from deterioration, blight, and unattractiveness all of which can have a negative impact on the environment of the community, effecting property values, and the quality of life which is characteristic of Arcadia.

It is further determined that the purpose and function of this Resolution is consistent with the history of the City and continued efforts through various means to maintain the City's land use, environmental, and economic goals and to assure perpetuation of both the psychological benefits and economic interests concomitant to an attractive, well maintained community with emphasis on residential living.

All findings and statements of purpose in related Resolutions which pre-existed this Resolution or prior covenants, conditions, and restrictions constitute part of the rationale for this Resolution and are incorporated by reference.

SECTION 5. If any section, subsection, subdivision, sentence, clause, phrase, or portion of this resolution is for any reason held to be invalid by the final decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this Resolution. The Council hereby declares that it would have adopted this Resolution and each section, subsection, subdivision, sentence, clause, phrase, or portion thereof irrespective of the fact that any one or more section, subsection, subdivision, sentence, clause, phrase, or portion thereof be declared invalid.

SECTION 6. That the City Clerk shall certify to the adoption of this Resolution.  
Passed, approved and adopted this 1st day of April, 1986.
